## EXPERIENCE

### Software Engineer — Home.pl | May 2022 — Present

- Designed scalable multi-brand e-commerce architecture
- Influenced architectural decisions around rendering, caching, and data flow
- Implemented SSG (Gatsby), SSR/ISR and caching improving performance and stability
- Created internal design system improving reuse and delivery speed
- Improved Core Web Vitals and reduced system complexity
- Used AI tools (Claude, Copilot, MCP) to accelerate development and refactoring

### Web Developer — Intermedia Wadowice | 2017 — 2022

- Delivered production web applications and websites end-to-end
- Developed custom-coded WordPress themes from scratch, without page builders
- Worked directly with clients: requirements, UX/design, implementation and deployment
- Improved performance, SEO, and page speed
